ABOUT ME

I have a strong mathematical education thanks to both the Master Degree and the Bachelor Degree in Mathematics from the University of Seville, as well as an innate love for programming.
I intend to never stop learning while growing as a professional.

WORKING EXPERIENCE

Graduate Software developer

Solera, Inc

📅 November 2020 - now   📍 Seville

Main tasks:

- Maintaining a Python 2.7 project that createa basic data analysis reports on a schedule in a remote Linux server.
- Maintaining such Linux server, running Ubuntu 18.04 LTS.
- Collaborating in the maintenance of a big project, that used Java 8 for its backend and React for the frontend. I mainly diagnose and analyse some of its problems, providing bugfixes and small features.
